

Calvert Hills Project

Rockland Resources are pleased to announce the granting of three Exploration Licenses (EL's) consisting of approximately 1,749 km². The Project is located in the uranium prospective areas of Calvert Hills and Benmara of the Northern Territory, approximately 100 km west of the NT-QLD border.

Main target of interest include, but are not limited to:

- **The Westmoreland Conglomerate:** The Westmoreland uranium field is located 100 km east of the Calvert Hills project area, in QLD.

Previous drilling revealed encouraging results for vanadium and molybdenum from XRF survey.

Rockland Resources look forward to further exploration in this prospective area with further XRF survey and appropriate drilling methods.
